

Decision 5/2023

WORKGROUP FOR THE DEFINITION OF ASSESSMENT CRITERIA IN INTEGRATED MEDICAL MASTER'S DEGREES

The A3ES Management Board establishes that there must be a set of specific criteria for the teaching of basic medical education study programmes (integrated medical master's degrees). This type of criteria exists in several countries of the European Higher Education Area for the assessment of study programmes that qualify for the medical doctor profession. The A3ES Management Board has contacted the President of the Portuguese Medical Schools, the Head of the Medical Association, the President of the National Medical Academy, as well as the Minister for Health, on the pertinence of creating a workgroup for the definition of the above-mentioned criteria. The following personalities have accepted the invitation to integrate this workgroup:

- Professor Jorge Soares, Lisbon Academy for Science, member of External Assessment Teams for A3ES
- Professor Altamiro Costa Pereira, Dean of the Faculty of Medicine of the University of Porto
- Professor António Carlos Megre Eugénio Sarmento, from the São João University Hospital Centre, representing the Ministry for Health
- Professor Carlos Robalo Cordeiro, Dean of the Faculty of Medicine of the University of Coimbra
- Professor Idalina Beirão, of the Abel Salazar Biomedical Sciences Institute / Santo António University Hospital Centre, representing the Medical Association
- Professor João Eurico Cabral da Fonseca, Head of the Lisbon School of Medicine of the University of Lisbon

Lisbon, 27 July 2023

The President of the Management Board
João Guerreiro
